ITT Awarded Task Order to Service U.S. Army Vehicles & Equipment

Colorado Springs, Colo., February 10, 2010 – The U.S. Army Contracting Command has awarded a task order under the Field and Installation Readiness Support Team (FIRST) contract vehicle to ITT Corporation (NYSE: ITT) for maintenance staff services for the U.S. Army Central Command (USARCENT) Special Troops Battalion (STB). Under this task order, ITT will provide support to the USARCENT STB in conducting maintenance, repair and other services for vehicles, generators and environmental control units in the Central Command area of operations.

The task order is for a one-year base period and includes options for four additional one-year periods, which if exercised will bring the total value of the project to approximately \$6 million.

Work will be performed by ITT Systems, a division of ITT Corporation headquartered in Colorado Springs, Colorado, a global leader in providing maintenance sustainment and operations support for U.S. military facilities, vehicles, equipment, ranges, networks, and systems.

About ITT Corporation

ITT Corporation is a high-technology engineering and manufacturing company operating on all seven continents in three vital markets: water and fluids management, global defense and security, and motion and flow control. With a heritage of innovation, ITT partners with its customers to deliver extraordinary solutions that create more livable environments, provide protection and safety and connect our world. Headquartered in White Plains, N.Y., the company generated 2009 revenue of \$10.9 billion. www.itt.com.
